

## Sequoia Century Coming June 3!

2018 Sequoia Chair  
Randall Braun

Hello Wheelers! The Sequoia is fast approaching, and our terrific team has been toiling on the many detailed items that make our event so Tree-mendous! Thankfully, we only need about 75 more volunteers in a few remaining tasks, so please go to the “Volunteer” link on the WW site now and

sign up to be a fun and valuable part of the upcoming 2018 Sequoia!

Speaking of rewarding . . . all the wonderful Sequoia and Western Wheelers volunteers are cordially invited to come out for the new 2018 Sequoia Fiesta! You might have heard some of the rumors about this year’s workers ride. Previously that post-Sequoia event was a weekend, now it’s all on one day, **Saturday, June 9**, and it’s called the **Sequoia Fiesta!** Details: We have reserved a wonderful umbrella- and table-decorated site right in downtown Pescadero, and we also have the best local Pescadero caterer and barbeque chef coming, as well as drinks, some games and coastside music too! As for the cycling, we’ll have ride choices that start right from there: a B/1.9/25, a C/2.4/45 and a D/2.9/58. And if anyone wants to ride over the hill and back, or carpool back, that’s great too! (Sign-up page coming soon.)

The classy standout Sequoia Jersey is now available from Voler.com. They are made to order and will take about a week to be received. Volunteers may choose a promo code to get the jersey at a discounted cost. We also have some very cool Sequoia Socks for sale on the site, so get a pair or two—you will wear them with pride!

As of mid-April, the Sequoia is about 60% full. The reg fees will go up on May 1, and we anticipate it will fill and close soon! So if you have any out of town cycling friends who want to see if our *challengingly beautiful* ride is as *amazingly great* as they’ve heard, then now is the time to invite them to step up and sign up and see for themselves!

Don’t forget that we’re going to have a Fun Finish again this year at the same shaded and secluded Foothill site with great food, vendors, music and a *smoothie bike!* (Gotta come to see what that is.) REI is again stepping up to providing a big piece of the finish zone, so this will be a fitting and well-deserved reward to all the riders and the volunteers, too.

The Sequoia is our annual expression of appreciation and gratitude for what we have: the beautiful scenery and fresh air and the numerous roads that allow us to challenge ourselves year round and the venues to share it with great friends. The Sequoia is not just for cyclists, it’s also our gift to the surrounding communities, and it’s a privilege to be a part of it.

## Last! Flat Tyre Mailing

Christine Fawcett, Newsletter Pro-

### April Mailing Party

Around twenty Western Wheelers joined me and my spouse Andy in making the final mailing of the paper Flat Tyre a truly memorable occasion. Guests were Pete Letchworth, Dave Ziegler, Howard Schafer, Peggy George, Beth Russell, Jim and Lisa Burke, Joice White and Curt Relick, Suzie Shao,

Jani Richards, Lynn Tottori, Michael Khaw, Holly Wong, Rob Williamson, Paul Wendt, Vicki Pelton, The work was done in record time before the pizza arrived. Vicki Pelton entertained us with a demonstration of how to make balloon animals, bunnies in particular. Thanks are due to Suzie Shao, Jani Richards and Lynn Tottori, all of whom brought home-made desserts, and to Beth Russell for the amazing magnum of red wine (sorry we didn't have a decanter!). Also thanks to Dave Z. for picking up the Flat Tyre from the printers, not to mention all his work in editing the final edition—I know there was a lot to cram in. And thank you Pete for picking up the appetizers and drinks.

Thanks are due also to many others not present who have helped with the mailing over the years—in particular Pam Lerner and Joe Tolfree, both of whom have filled in for me when I was away; Mona Schorow and Dick Blaine for producing the mailing labels; and hosts and/or frequent mailers Ralph Rohwer, Judy Colwell, Martha Landis, Bonnie Ellstadt and David Falconer, Rosemary and Dale Gill, Linda Vanderhule, Bettina Vinsant, Guy and Mindy Shuman, Allen and Barbara Cymrot, Anne Paulson, Kelle Mason, and no doubt many more. I apologize for those I have not included. I am really going to miss these social gatherings and hope we will find ways to continue them.

## Western Wheelers Board Minutes

April 18, 2018

*In attendance:* Cindy Asrir, Randall Braun, Christine Fawcett, Mike Grobler, Adrienne Harber, Robert Sexton, Bill Sherwin, Guy Shuman, Mindy Steiner, Vern Tucker, Dave Ziegler

*Absent:* Mona Schorow, Mike Rissi  
(both sent in email reports)

### Monthly Updates

**Treasurer:** Mike reported that the club is on budget with no major concerns.

**Membership:** Vern reported that the club has just over 1000 members. 44 members are lapsed, and 65 are overdue but not yet lapsed. Guy reported that he sent 100+ cards to lapsed members but he has not yet analyzed the results. Vern said that he would like the Sequoia captains to provide him with a list of who shows up for the event to ensure that they get their free memberships.

**Chief Editor:** Dave reported that the last print issue of the *Flat Tyre* is done and that the editors are looking at identifying a couple of people who can take over in the future. The deadline for the *Flat Tyre* going forward will be the 23rd of each month.

**Webmaster** - Mona reported that the web conversion has gone very smoothly and that there have been a lot of kudos for the new site. She said that more format and navigational changes are coming, and she will provide more details at the May meeting.

**Events Chair:** Cindy reported that the next event is the spring picnic and details are still being finalized. REI will have a presence at the picnic. She reported that other activities in the works include a movie night, REI-sponsored bike repair clinics, and a Tour de France party.

**Ride Chair:** Mindy reported that we are transitioning to the new ride-listing process. There have been some bumps, but she is confident that we will work through these. She reported that George Schuttinger will continue to coordinate the Thursday B ride. She also said that the LDTs are going great and she reported that the club is looking for a new person to coordinate the Fall Fun Series.

**Sequoia:** Randall reported that we are at about 60% capacity for the ride and things are going great! He said that there are no big issues so far and that all permits are in place. He also reported that plans for the "Sequoia Fiesta" are in place, too.

### General Items

Robert reported that the ride listing group is still working on making changes and are not yet ready to provide a report.

There was general discussion around whether or not we should hold on to the bulk mailing permit, given that we are no longer mailing the *Flat Tyre*. We deferred that decision until we have more info from Christine and input from Mike.

Christine reported that progress has been made on the first aid kits. There should be enough material to make about 30 kits.

Mindy repeated what she has been saying for a while: Meetup is difficult to use. A motion was made to allow Meetup to expire in June and that the Ride Chair can wind it down as she sees fit. The motion carried 10-1.

There was general discussion around whether or not the club would pay for transport home when the ride leader determines that a rider should not continue a ride. No formal motion was made, but the consensus of the board was that this would set an inappropriate precedent.

## LDT CORNER

*Guy Shuman, LDT Coordinator*

The Long Distance Training Series will conclude on Memorial Day, but there are still four fabulous weekends left, so let's enjoy the sunny spring weather! The **Cazadero LDT Weekend** on May 4–6 explores the beautiful but hilly Russian River country west of Guerneville. This is primarily a camping weekend, but there are some local hotel accommodations as well.

The LDT series then concludes with climbs of the three highest Bay Area peaks (**Mt. Diablo, Mt. Tamalpais, and Mt. Hamilton**) on successive weeks. These rides all involve long climbs, but none are steep, and all are suitable for B through E riders. They are all beautiful rides with fantastic views of the Bay Area and Pacific Ocean (and sometimes the Sierras)! See online schedule for ride details.

Note that we will again be offering our “**Fall Napa Valley LDT**” camping excursion. On October 5–7, 2018 we'll explore the Napa Valley with a fun 3 day camping excursion. Save the dates on your calendar—detailed info coming soon . . .

## Silicon Valley Bicycle Exchange: Relocation Needs

### Situation

For 25 years, the non-profit Silicon Valley Bicycle Exchange has been repairing used bicycles and donating them to social service agencies for their clients. A property situation may now require us to find a new home. We need an operating space to support our skill-sharing alternate-Saturday volunteer events. We're open to shared-use facilities (business, school, church etc.)

### What's Needed

We need an operating space, available by July 2018. This could be a parking lot, or raw land, or unused garage or workshop space. SVBE has resources to procure and erect workshop and storage facilities as needed.

### Space Needs

Currently Silicon Valley Bicycle Exchange (SVBE) has 2500 sq. ft. of workshop, shipping container, and tented storage space behind an automotive garage, expanding into an additional 3000 sq. ft. of back parking lot to host 50-100 volunteers during weekend volunteer events.

## Our Web Site: Smooth Conversion to a New Version

*Mona Schorow, Webmaster*

We had a lot of help! Emily Nishihira was instrumental. Dick Blaine, Jim Christol, Judy Colwell. Ron Dell-Aquia, Christine Fawcett, Mike Khaw, Denis Lynch, Steve Prothero, David Schorow, Carol Shaw, and Vern Tucker quickly reviewed the site making sure it worked properly. Naomi Bloom noted a change needed for the Membership process. Registrations for The Sequoia and volunteering continued. The Western Wheelers didn't miss a beat!

Ours is a volunteer organization, and we all pitch in. When you note issues or make suggestions for the site, it really helps because then we can fix it. If you are comfortable with the web and/or can write reasonably well would you like to help even more? Do you know CSS? If you'd like to help—whether with a small “one-off” or with a regular activity—just email me at [MonaSchorow@gmail.com](mailto:MonaSchorow@gmail.com). I'll describe the “dessert tray” of activities from which you may choose or eschew.

Each of us brings something different to the party. We each do our little bit and the result is spectacular. Western Wheelers is a great volunteer organization, thanks to you.

**Edditor's note:** It goes without saying that the club owes huge gratitude to Mona Schorow for spearheading this time-consuming process!

## Printing the Flat Tyre

Many of us enjoy having the *Flat Tyre* on paper. You can print your *Flat Tyre* from the Western Wheeler website if your computer has a printer. Here are a couple of ways to do this:

### Using Chrome browser

Click on the icon of the printer on the top right corner of your screen.

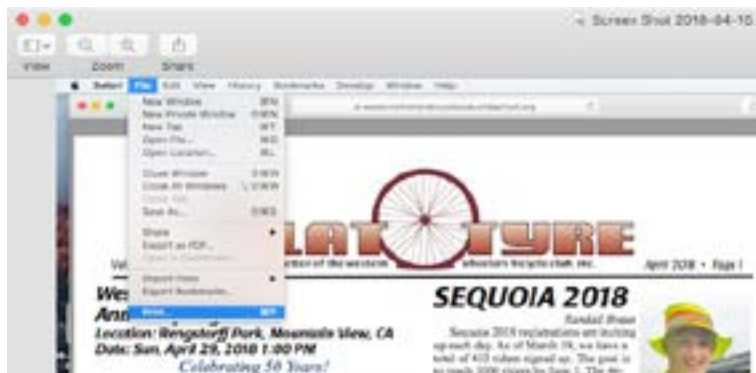

Then click on the blue [Print] key near the top of your screen.

### Using Safari browser

From the [File] menu at the top of your screen, select [Print], the last choice.

Then click on the blue [Print] key on the bottom right of the popup.

If you have questions:

Dick Blaine dick@theblaines.net

They may be able to assist you.

(Thank you, Vern and Dick.)

## Western Wheelers May 2018 Recurring Rides

**DETAILS OF RIDE CLASSIFICATION:** The format of the ratings is:

PACE/HILLINESS (total climbing if known)/DISTANCE

**PACE (A-F):** Indicates the average speed while riding, with A being the slowest and F being the fastest. Nonriding time is not counted, so rides with long stops may have the same average speed as rides with short stops.

**HILLINESS (0-5):** Rates the terrain based on the average feet climbed per mile for the entire ride. This is the ratio of the total climb to the total distance, all divided by 25.

Hilliness Rating	0	1	2	3	4	5	
Average Climb	0	25	50	75	100	125	(Feet/Mile)

The longer, steeper and more frequent the hills, the higher the hilliness rating and the slower the average speed. However, a low hilliness rating does not guarantee that a ride contains no long or steep hills, because the rating could be diluted by flat stretches around the hills. If a ride contains an unusually challenging hill for its hilliness rating, an exclamation point (!) is appended to the hilliness rating.

The ride description should provide more details. It is possible but rare to have a hilliness rating greater than 5.

**AVERAGE SPEEDS:** The average speeds (mph) for the different pace and hilliness ratings are:

	HILLINESS RATING						Average
Pace	0	1	2	3	4	5	OLH Time
A	10	9	8	NA	NA	NA	NA
B	12	11	10	9	8	7	43-54 min.
C	14	13	12	11	10	9	34-43 min.
D	16	15	14	13	12	11	27-34 min.
E	18	17	16	15	14	13	22-27 min.

If the pace rating letter has + or - appended to it, the average speed is changed by 1 mph.

**CHOOSING YOUR RIDE:** The speeds in the above table may seem low because you know you can ride faster at times. Remember, however, that the numbers represent the average speed for the entire ride. Don't attempt rides beyond your ability. If you are taking your first club ride, err on the conservative side. Novice cyclists are welcome on A rides. A, B, and C rides are typically more leisurely and have more regroupings than D, E, and F rides, which are brisker-paced rides for more experienced and self-sufficient cyclists.

If you are unsure which group to go with on hilly rides, time yourself up Old La Honda road, and compare your time with the time ranges shown in the above table. If your time is within the range for a certain group, you can feel comfortable riding with that group on hilly rides. Note that the OLH time does not refer to your personal best time, but to the time in which you can comfortably climb Old La Honda, and perhaps not just once, but repeatedly, because that is the pace the group will be maintaining all day on multiple climbs.

If you choose to ride with a slower group, you should not expect them to speed up for you, and if you choose to ride with a faster group, you should not expect them to wait for you.

**RIDE RATING EXAMPLES:** "C+/2/40" indicates a 40-mile ride with about 2000 feet of climbing, ridden at an average speed of 12 mph.

"E/4!(9700)/100" indicates a 100-mile ride with 9700 feet of climbing, some of it very steep, ridden at an average speed of 13 mph.

**WEATHER CONSIDERATIONS:** Rides may be canceled if rain seems likely during the ride. If in doubt, call the ride leader.

**RECOMMENDED EQUIPMENT:** Please try to bring basic tools, sunglasses and sunscreen, water bottles, food or food money, a first-aid kit, phone charge or cellphone, "layered" clothing, etc. Bright clothing recommended.

## Reminders from the Ride Chair

*Mindy Steiner*

Any Western Wheelers club member can propose a Ride by using the online Ride Listing Composer on the Ride Leaders Resources page at [westernwheelers.org](http://westernwheelers.org) or by sending a ride description containing complete details to [addride@westernwheelers.org](mailto:addride@westernwheelers.org). Be sure to include date, title, start time/place, distance, rating, lunch arrangements, and your phone/email contact information. The earlier you list your ride, the more participation you are likely to have. There is no strict deadline, but please try to submit your ride at least two days before the ride. Do NOT email your listing directly to the email list(s).

### Changes to the Ride Submission Process

We will no longer have deadlines for listing rides. Starting immediately, all rides will be submitted using the Ride Listing Assistant or by emailing a complete listing to "[addride@westernwheelers.org](mailto:addride@westernwheelers.org)". This is similar to the way we have been listing "impromptu" rides, but the word impromptu will be eliminated from ride listings. The rides will be checked for completeness and accuracy and then posted on the calendar. We will process the rides as quickly as possible, but leaders should submit their ride early—preferably at least 24-48 hours ahead. The Ride Chair will send out weekly emails to "wwbc-RIDES" informing the club of recently added rides and any changes to rides previously listed on the calendar. If a ride is submitted after the weekly email has been sent out (and it's for the current week) then an additional email will be sent out to "wwbc-RIDES" (the same way we currently do for "impromptus"). Full information about submitting/leading rides can be found in the Ride Leaders Guide online.

The complete ride schedule will only be available online, but members will be able to print a current schedule at any time by printing the "calendar view" or switching to "List View" for a more detailed printout.

**Every Tuesday B/B+/2/30 RIDE FROM SHARON PARK.** Rides and ride leader will vary each week but you can count on a ride from Sharon Park Safeway Lot in Menlo Park every Tuesday. Meet either **Ken Lum** ([lum40@comcast.net](mailto:lum40@comcast.net) or 650-832-8133) for a **SHARON PARK TO SHORELINE B ride** or **Jim Burque** (408-656-4645, [jburque54@gmail.com](mailto:jburque54@gmail.com)) for various B+ rides. See online ride schedule for specific details for each ride. Meet at 9:50 am for a 10:05 departure at 325 S. Sharon Park Drive, Menlo Park.

**CD/2/30-35 BLASBERG'S TUESDAY LOOP RIDE.** Peter B. has now retired from leading this ride. In honor of his many years of dedicated service we have named the ride after him, and the immortal words of his ride description will be retained here, mostly intact. So here we go: Retired, home executive, between jobs, playing hooky? We'd love to have you join us each Tuesday during the year, rain or shine, at Starbucks in the Westmoor Shopping Center in Sunnyvale, corner of Fremont and Mary, at a later, civilized hour.

The route is a variation of the Portola loop with lunch stops at various eating places in the Palo Alto area. There are hilly C and D routes as well as a flat route. All rides meet at 10:45 for a prompt 11 am departure. The hilly route varies through the month. See the online Events Calendar for links to routes in Excel and PDF

formats. Everyone assembles together at regroup and for lunch. Many stop for coffee near the end of the ride. Leader: **Vern L. Tucker**, vltbike@yahoo.com, home 408-730-2548, cell 408-893-6008. Bring lunch or buy.

**DE/4/20 TUESDAY POWER LUNCH.** Join **Robert Sexton** (robert@kudra.com, 408.218.8466) and **Mark Bagnola** (mbagnola@mac.com) for a fast lunchtime ride from Cupertino into the hills around Stevens Creek Reservoir. Typical routes include one of: Montebello, Redwood Gulch, or Villa Montalvo/Peach, and are finalized at the ride meet to be about 90 minutes long with a brief regroup at the top of the hill(s) of choice. Meet behind the Cupertino Target (intersection of Alves Drive and Saich Way) by noon for a 12:05 sharp departure.

**CD/2.5/15 TUESDAY EVENING RIDE.** Join us after work every Tuesday evening for a backroads tour of Woodside and environs, including some moderate hills. Meet in the parking lot behind the Pioneer Saloon in downtown Woodside at 5:45 for a 6 pm departure. Ride leader and route sheet vary from week to week. Please equip your bike with front and back lights for added safety in low light evening conditions. Ride coordinator: **Richard Exley** (therexley@gmail.com 650-704-3801).
